

Enzyme based
all natural
misting
concentrate

Active Ingredients

Sodium Laurel Sulfate 4.35%
Sodium Chloride 1.5%
Potassium Sorbate 0.16%

Formulation

Emulsifiable Concentrate

Benefits

100% all natural
Food grade enzymes

25(b) EPA Exempt

Leaves no pesticide residue

Biodegradable

Signal Word

Caution

Areas of Use

Indoors use: fogging - general
pest control

Outdoor use: misting systems,
foggers—turf and grass areas,
trees and shrubs, recreational
areas, boat docks, other outdoor
areas.

Insects Controlled

Ants
Bed Bugs
Gnats
Midges
Mosquitoes
Spiders
Many other small flying insects

Packaging

4 x 64 ounce bottle

ALL NATURAL MOSQUITO SPRAY

Insecticide Concentrate

APPLICATION:

For use in automatic insect control systems, misting systems and foggers. Can also be used in tankless misting systems.

ENZYME FORMULA:

Application equipment benefits from our enzyme formula. The food grade enzymes have already fermented and are not fermenting, thus lowering equipment clogging and bacterial growth in reservoirs.

HOW DOES IT WORK?

Auto Mist All Natural Mosquito Spray is perfect for residential mosquito control systems. It works similar to an insecticidal soap which disrupts structure and permeability of the insects' cell membranes. The cell contents are able to leak from the damaged cells, and the insect quickly dies.

GREAT FOR SENSITIVE AREAS:

Because Auto Mist All Natural Mosquito Spray is made from food grade enzymes and is a 25(b) minimum risk insecticide, it does not require a re-entry period, making it perfect for treating accounts with lots of human activity or other sensitive applications.

NO AQUATIC SETBACK REQUIRED:

Auto Mist All Natural Mosquito Spray has no aquatic toxicity, therefore use may be made near or over open water. This allows for application to control spiders around boat docks and marinas. Also effective for application in areas where foliage runs adjacent to and over bodies of water.

Common mixing: 64 ounces concentrate with 50 gallons of water.

This product has not been registered by the United States EPA. United Spray Systems, Inc represents that this product qualifies for exemption from registration under FIFRA.
